ACTION: Notice of Availability of the Record of Decision on the Final Environmental Impact Statement/South Florida and Caribbean Parks Exotic Plant Management Plan.

SUMMARY: Pursuant to the National Environmental Policy Act of 1969, 42 U.S.C. 4332(2)(C), and the Council on Environmental Quality regulations (40 CFR part 1500-1508), the Department of the Interior, National Park Service (NPS) has prepared and approved a Record of Decision (ROD) for the Final Environmental Impact Statement (Final EIS) for the South Florida and Caribbean Parks Exotic Plant Management Plan. The nine parks included in this Plan are: Big Cypress National Preserve, Biscayne National Park, Canaveral National Seashore, Dry Tortugas National Park, Everglades National Park, Buck Island Reef National Monument, Christiansted National Historic Site, Salt River Bay National Historic Park and Ecological Preserve, and Virgin Islands National Park.

The ROD documents the decision by the NPS to implement Alternative C (New Framework for Exotic Plant management: Increased Planning, Monitoring, and Mitigation, with an Emphasis on Active Restoration of Native Plants) as the selected action for the South Florida and Caribbean Parks Exotic Plant Management Plan. Alternative C was also identified in the Final EIS as the environmentally preferable alternative.

The intended effects or objectives of this action are to:

- Establish priorities for exotic plants to be treated and treatment locations in parks;
